

Why join ScotlandIS?

Start Up

For start up companies we know the challenge is to create awareness of your business. As a ScotlandIS member you are part of a thriving community and we help you to build your network and raise profile.

Our membership represents all sectors from software, telecommunications, games, IT and digital agencies to companies where digital technology is critical to their business. We help them connect with the talent of the future, to other leaders in business, to policy makers in government.

Grow your business through our combination of services – events, networking and introductions, lobbying and campaigning about critical issues, market knowledge, member benefits, skills development and building relationships.
