

## **Digital Skills – Data Graduate Case Studies**

### **ALEX PEREPECHAY**

#### **Profile**

Alex Perepechay is a highly motivated Principal Land Surveyor with 17 years of professional experience (11 years UK), looking for a new challenge and seeking to gain new experience.

Alex recently completed a Level 11 Digital Upskilling module in Introduction to R and Data Visualisation and is keen to put this to use..

A high-performer, Alex demonstrates initiative, with good attention to detail and a positive attitude. He has the ability to work well under pressure, and to ensure efficiency whilst maintaining a high standard of work. Excellent communication skills allow for solving problems and training junior staff, that is fundamental during teamwork.

#### **Experience of the Course**

“The course information was simple and easy to follow, with great support from the lecturer. The level of support from ScotlandIS and UHI was also great!

With this module, I have learned how to understand principles of data analyses and data visualisation, learning new programming language and refreshing my coding skills.

I'm new to this industry but I'd like to find a job where I can use and develop my data visualisation skills, and in a perfect world this job would have a connection to GIS or surveying.

- Alex Perepechay
