

CLIMATE TECH CASE STUDY

Investment/Funding/Support

Amazon

Amazon have also led the way as they shift focus towards new climate technology led investment.

Amazon have created a Climate Pledge Fund, kickstarted by their own \$2 billion in funding, which will support the development of sustainable technologies and services that will enable Amazon and other companies to be net zero carbon by 2040.

The fund will invest in a range of industries, including transportation and logistics, energy generation, storage and utilization, manufacturing and materials, and food and agriculture.¹
