

## **NPA in Cyber Security**

### **Graduate Case Studies**

## **SOPHIE MACCOLL**

### **Profile**

Sophie MacColl is a recent graduate from West Lothian College's Digital Upskilling NPA SCQF Level 6 in Cyber Security.

Additionally, Sophie has undertaken a Digital Science course with West Lothian College, which sparked an interest in cyber security which she wanted to take further.

### **Experience of the Course**

"I wanted to take the course because I wanted to further my learning on digital forensics and ethical hacking. I've now learned how to write reports, and how to use new software like Wireshark and Autopsy.

My favourite part of the course was the digital forensics assessment - it was like working in the dark but in the end it all came together, and was really interesting."
